

# TEXTILE

environmentally  
conscious

# RPET

The fabric used in the manufacturing process of this jacket is made of recycled plastic (RPET). Like this, the emission of plastic residues to our planet and the consumption of energy is drastically reduced, resulting in a much more eco-friendly process.

El material de esta chaqueta está fabricado con plástico reciclado (RPET), que, además de ayudar en la disminución de residuos plásticos en el planeta, utiliza menos energía en el proceso de fabricación, haciendo que sea mucho menos dañino para el medio ambiente.

# RPET

The fabric used in the manufacturing process of this polo shirt is made of recycled plastic (RPET). Like this, the emission of plastic residues to our planet and the consumption of energy is drastically reduced, resulting in a much more eco-friendly process.

El material de este polo está fabricado con plástico reciclado (RPET), que, además de ayudar en la disminución de residuos plásticos en el planeta, utiliza menos energía en el proceso de fabricación, haciendo que sea mucho menos dañino para el medio ambiente.
